Snail VC Word Game

You will need to use a dice and counters for each person playing.

1. Place your counters at 'start'.
2. Each player rolls the dice and moves their counter onto the snail starting at 'if'.
3. Read the word your counter lands on. If you can't read the word, move back to your previous position on the board. You can help your child read the word, first, so that they will know it for future success.
4. The winner is the first person to finish in the centre of the snail!
