Installing Clicker 8 on a Personal Device

Overview

Clicker 8 is available on all C2K managed devices.

In addition, if a user wishes to install Clicker 8 on a personal device this can be done by following the instructions below.

Installation Guide

Select the appropriate link below to access the getting started guide for your device:

Clicker 8 (Win/Mac) Get Started Guide

Clicker Writer (iPad/Chromebook) Get Started Guide

When prompted, you will need to enter the Clicker 8 enrolment details. The enrolment details can be found on the Information Sheet No EN182 Installing Clicker 8 on a personal device via the C2K exchange.
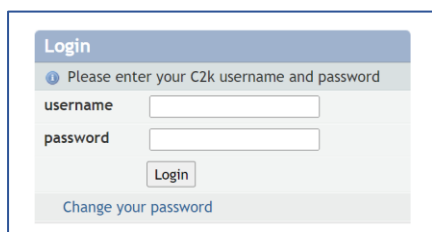

To access this document on the C2K exchange:

Click on the link above or Select C2K Exchange on your MySchool homepage.
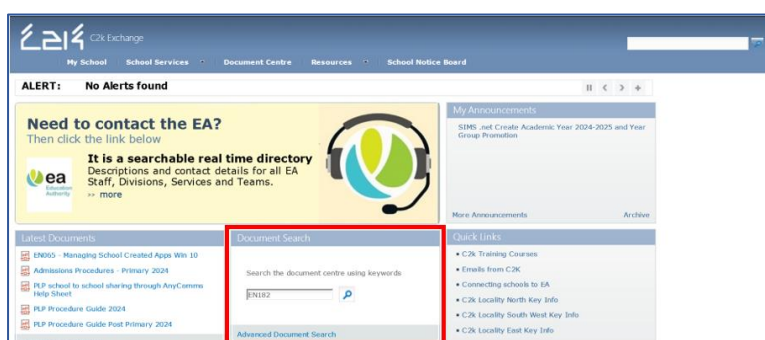

Installing Clicker 8 on a Personal Device

You may be prompted to sign in using your C2K username and password.

When the C2K exchange homepage opens, type **EN182** into the search bar and then click on the search icon.

Select the EN182 – Installing Clicker 8 on a personal device guide to view the login credentials.

Professional Development / Resources

- Once you have Clicker installed on your devices, visit the Clicker website to explore free training tutorials and printable summaries
- CrickSoftware are also running a series of webinars specifically for Northern Ireland schools. Further details can be found here:
  Northern Ireland - Clicker training | Crick Software
- You also have access to thousands of ready-made curriculum resources on our LearningGrids site. You can find these by clicking on the LearningGrids link within Clicker

Please note that pupils do not have access to the C2K Exchange. If you wish for pupils to have access to Clicker 8 at home on their devices, you will need to supply them with the enrolment details.
